FOR HVACR APPLICATIONS

CONDENSER FAN

- Versatile mounting options; multi-mounting capability; replaces multiple styles of OEM motors; all angle mount
- Durable ball bearings or dependable all-angle sleeve bearings
- Water resistant reversing plug on 70°C and 80°C motors
- UL® recognized component listing and CSA® certified ensure the product is safe for use

AERATION FAN

- Double-shielded ball bearings provide long service life
- Automatic reset protector, protects against motor overload
- Belt driven fans or fan on shaft applications
- TEAO mounted in airstream for proper cooling
- UL® recognized component listing and CSA® certified ensure the product is safe for use

PEDESTAL FAN

- Easy drop-in replacement for most standard direct-drive fan motors
- Four extended stud bolts allow for easy yoke fan shroud mounting
- Automatic reset thermal protector prevents overheating
- Quiet operation compared to standard fan motors due to low noise grease
- UL® recognized component listing and CSA® certified ensure the product is safe for use

THREE TRUSTED BRANDS

EVAPORATIVE COOLER

- Continuous filtration of oil
- Heavy magnet wire insulation
- Moisture resistant terminal board
- Auto protector
- UL® recognized component listing and CSA® certified ensure the product is safe for use

REFRIGERATION FAN

- Rodent screens
- Automatic reset thermal protectors
- 1.25 service factor, class F insulation
- Inverter duty insulation system
- UL® recognized component listing and CSA® certified ensure the product is safe for use

OIL BURNER

- Open drip proof, manual or automatic thermal protection
- Split phase, capacitor start, and three phase designs
- Available in flange and C-face options
- UL® recognized component listing and CSA® certified ensure the product is safe for use
