INDUSTRIAL CONTROL PANELS

Boost the **efficiency, reliability, and safety** of your energy systems with custom-built industrial control panels from Sumitomo Drive Technologies.

WHAT SETS OUR PANELS APART?

Our panels integrate innovative technology, including **Inverter Variable Frequency Drives, PLCs, HMIs, and advanced Condition Monitoring Systems** like CycloSMART®. Each design is customized to meet your unique specifications and operational needs, ensuring seamless system connectivity with support for protocols like **Modbus, EtherNet/IP, Profibus, and BACnet**.

We provide **expert training** to help you maximize your system's potential, with user-friendly solutions that make operation and maintenance **simple**.

With **short** lead times and **reliable** performance built to exceed industry standards, our panels are designed to deliver results you can trust.

WHAT WE INCLUDE WITH EVERY CUSTOM PANEL

Detailed Drawings

Comprehensive cabinet layouts, equipment schematics, material lists, and cable diagrams for precise **planning and assembly**.

Optimized Equipment Placement

Secure, regulation-compliant layouts with protective covers to ensure maximum **safety and durability**.

Organized Cabling

Shielded, color-coded wiring with proper routing and clearly labeled terminal blocks to simplify **installation and maintenance**.

Clear Component Labeling

Durable and easy-to-read labels for seamless identification, reducing downtime and enhancing **usability**.

UL 508A CERTIFIED PANEL SHOP

As a UL 508A Certified panel shop, we design and manufacture industrial control panels that meet the **highest** safety and compliance **standards**.

Our certification ensures adherence to:

- **The National Electrical Code® (NEC)**
- **The Canadian Electrical Code® (CEC)**
- **Underwriters Laboratories (UL) standards**

With expertise in motor wiring, environmental classifications, and protective components, we deliver panels built for **safety, reliability, and performance** across the US and Canada.

LET'S BUILD YOUR PERFECT CONTROL PANEL

Tell us about your project, and we'll craft a solution that **exceeds** your expectations. Our custom-designed industrial control panels deliver **precision** and **reliability** to power your operations. Contact us today to take the first step toward a smarter, safer system.
